

Aftermarket Parts Report

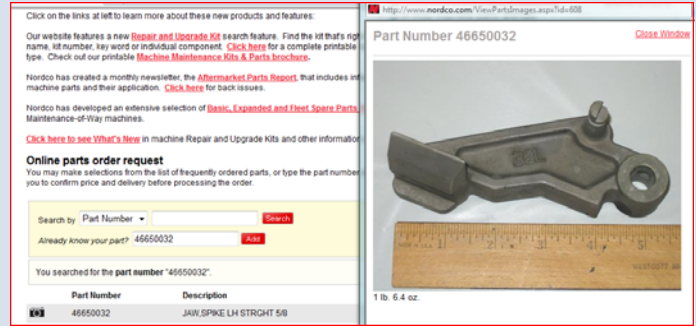

Current information on Nordco Maintenance-of-Way machine parts and kits

Issue 12 December, 2009

Picture this... Nordco adding photos of parts to website

Nordco has begun adding photos of parts with weights to our website at www.nordco.com.

To search for a part, click on the Parts tab on the navigation bar. Then scroll down to the yellow box and enter either the part number or keyword. If a photo is available, a small camera icon will appear next to the part number. Click on the icon and the photo will appear. Over 5500 part numbers are loaded into our online database. We will continue to add photos to these parts on a regular basis, so check back often to see additional images and other updates to the site.
